

Responsiveness on Laptops:

The image shows a laptop screen displaying a "Weight Converter" application. The interface is clean and modern, with a light gray background. On the left, there is a text input field with the placeholder text "Enter Pounds (lbs)...". To the right of the input field, there are four stacked, colored boxes representing different weight units: Grams (g) in blue, Kilograms (kg) in green, Ounces (oz.) in red, and Stone (st.) in yellow. Each box displays the value "0". Below these boxes, there is a small "Reset" button. The overall layout is centered and appears to be responsive to the laptop screen size.

Unit	Value
Grams (g)	0
Kilograms (kg)	0
Ounces (oz.)	0
Stone (st.)	0
